Children's/YA Librarian Report (Audrey Snowden):

The live program attendance numbers are a little up from February, in part because we started a weekly gaming program on Tuesdays, and have had consistent success with it. We'll do it again through April. Yoga is still popular, and we have gotten PAWS to Read onto a regular schedule, every two weeks. April should look pretty similar to this month, in terms of programming; we'll add in some more gaming on a few Wednesdays.

Makerspace

We are going to start a new session of Arduino coding & robotics starting in May.

STEAM Thursday was held on Mar 11 & 26.
